1. PRODUCT SUMMARY

The P250FCC is a one or two fiber cross-connect enclosure that can serve as a transition point for outside plant applications.

The enclosure offers secure, protected cable management in a rugged, weatherized and compact unit.
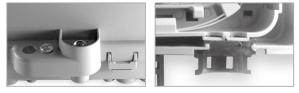

2. PRODUCT DIMENTIONS
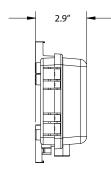

Inside H: 4.7"/W: 6.4"/D: 2.4"
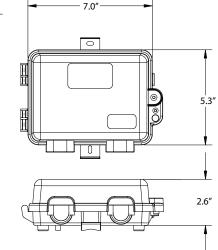

3. FEATURES & BENEFITS

- Compact enclosure for fiber transition point and side-of-house installation that holds 3 feet of hardened drop cable.

- Two fiber fusion splices, two connectors/ simplex adapters and two fiber transition points.

- Save up to 40% over metal alternatives with high impact and flame retardant engineered PVC or optional high temperature polycarbonate.

- Rugged enclosure protects your equipment in demanding weather conditions.

- Allow 24/7 secure access by a service technician with the available override, hex or screw type locking mechanism.

- Deploy quickly and easily with External Wall and Pole Mounting Brackets that eliminate the need to drill through the box.

- Easy access for installation, maintenance and repair with a 180 degree hinged lid and a snap lock that eliminates the need to remove and replace lid.
